RE: ANNUAL BACKFLOW RECERTIFICATION NOTICE - DUE 30 DAYS FROM DATE OF NOTICE **FAILURE TO COMPLY WILL INCUR LATE FEES** AFTER 7 DAYS LATE \$11.00 -- AFTER 21 DAYS LATE \$32.00**

From the date of this notice, you will have 30 days in which to have your backflow assembly tested and certified. If repairs are needed, the assembly will require retesting before it can be certified. The enclosed tester list is provided as a convenience. If you choose a tester not shown on the enclosed list, please have the tester contact our office to verify they meet the requirements. The testing company must also possess a valid City of Carlsbad business license. Only tests performed by testers meeting the requirements will be considered valid. The Field Testing & Maintenance Form provided by the District must be completed by the repair and test contractor, signed by the tester and the original returned to the District. Test forms from other agencies, nor the tester's own forms will be accepted. This form must be completed and returned to the District within 30 days from the notice date or your water service will be subject to termination
